## FOR IMMEDIATE RELEASE

### PCT International Unveils FTTP Solution for CATV Operators

---

GILBERT, AZ, USA – June 20, 2007 – PCT is introducing a flexible, easy to integrate solution for cable operators to address the growing market for MDU's and private home developments requiring fiber be dropped to each unit. "Cable operators have a more difficult time responding to FTTP requests since they don't typically deploy PON solutions or metro-Ethernet solutions," asserts Brandon Wilson, Executive Vice President, PCT International. The solution leverages existing video and two-way DOCSIS infrastructures, assimilates to single or multi-fiber drops, and can be implemented in an outdoor enclosure or control room. PCT provides all the necessary active and passive optical products to provide a complete DOCSIS compliant FTTH platform.

#### About PCT International, Inc.

PCT International, Inc. and its holding company, Andes Industries, Inc., is a leading worldwide manufacturer of last-mile products for broadband communication networks. PCT focuses on innovative and cost-effective solutions that allow service providers to improve system integrity and expansion of their service offerings. PCT's portfolio includes transmission and connectivity products for the broadband, CATV, satellite and structured wiring markets. PCT is headquartered in Tempe, Arizona, and has over 1,500 employees. PCT maintains multi-international locations to support worldwide manufacturing, logistics, and distribution of its products and services.
