FOR IMMEDIATE RELEASE

PCT Introduces Digital Terrestrial Reception Solutions

GILBERT, AZ, USA – June 20, 2007 – Channel Master, a division of PCT International, announces the addition of several new lines of products in order to help consumers and operators receive digital terrestrial television signals. The new portfolio includes small form factor antennas, SMART antennas, connectivity solutions, and digital to analog set top boxes to maintain legacy television sets. "February 2009 is just around the corner and the conversion of digital to analog can be substantial for operators who may be able to drop local, digital off air channels currently consuming valuable bandwidth," states Gary Williams, Vice President Sales, PCT International, Inc.

About PCT International, Inc.

PCT International, Inc. and its holding company, Andes Industries, Inc., is a leading worldwide manufacturer of last-mile products for broadband communication networks. PCT focuses on innovative and cost-effective solutions that allow service providers to improve system integrity and expansion of their service offerings. PCT's portfolio includes transmission and connectivity products for the broadband, CATV, satellite and structured wiring markets. PCT is headquartered in Tempe, Arizona, and has over 1,500 employees. PCT maintains multi-international locations to support worldwide manufacturing, logistics, and distribution of its products and services. For more information, please visit www.pctinternational.com.
