FOR IMMEDIATE RELEASE

PCT International Introduces New All-In-One Compression Tool Eliminating Need for Multiple Tools in the CATV Field

TEMPE, AZ, USA – August 04, 2008 – PCT International, Inc. (PCT), a manufacturer of last mile solutions, announced today the introduction of PCT-AIO-CT All-In-One compression tool.

PCT is pleased to introduce its new All-In-One (AIO) compression tool, the PCT-AIO-CT. The AIO is PCT's solution to the problem of multiple tools in the field. The AIO is a uniquely designed compression tool that eliminates the need for installers to carry more than one tool. This tool is truly universal, and works with almost every connector on the market today, including F, RCA, BNC, IEC, and right angle connectors. Different compression lengths can be selected with the simple push of a button, and a "pop out" mandrel allows for BNC and right angle connections to be made with ease.

"The PCT-AIO-CT compression tool is designed with the installers' needs in mind," states Bryan Blunt, PCT's Product Manager of Connectivity. "The simple fact is that nobody wants to carry multiple tools, and with the AIO on the market, they no longer have to."

Featuring compression length changes with the push of a button, a "pop out" mandrel that requires no calibration and is permanently affixed to tool body to prevent misplacement, and has a rugged design that stands up to even the most abusive environments, the PCT-AIO-CT All in One tool is the next evolution in compression tool technology.

About PCT International, Inc.

PCT International, Inc. and its holding company, Andes Industries, Inc., is a leading worldwide manufacturer of last-mile products for broadband communication networks. PCT focuses on innovative and cost-effective solutions that allow service providers to improve system integrity and expansion of their service offerings. PCT's portfolio includes transmission and connectivity products for the broadband, CATV, satellite and structured wiring markets. PCT is headquartered in Tempe, Arizona, and has over 1,500 employees. PCT maintains multi-international locations to support worldwide manufacturing, logistics, and distribution of its products and services. For more information, please visit www.pctinternational.com.
