beige.

Made in America

Realize Significant Cost Savings and Installation Efficiencies with PCT Custom Cable Jumpers!

END-TO-END MANUFACTURING

- ✓ Engineered for advanced two-way broadband networks requiring high performance levels, ensuring quality of service and customer satisfaction
- ✓ Coaxial cable, connectors, sleeves, and assemblies are all manufactured by PCT
- ✓ Meet stringent US and international standards, including SCTE
- ✓ Approved by North American cable and satellite operators
- ✓ Material price advantage passed on to our customers
- ✓ 24/7 USA manufacturing

Jumper Options Include PCT Manufactured Products

- ✓ **Coaxial cable** - with a variety of shielding, jacket color, and technology (like Z-Wire® and 1Prep™) options
- ✓ **Connectors** - choose from a variety of series options that include continuous ground and locking
- ✓ **Connector sleeves** - assorted model options
- ✓ **Lengths** - get exactly the lengths you need
- ✓ **Packaging** - bundled, coiled, bagged, and other options

Ordering Information

PCT builds to suit your needs! Whether straight from our factory or multiple domestic warehouses, PCT's production and logistics efficiencies are passed on to you. Our customer service team is ready to work with you for the best possible configurations. As always, PCT manufactures best in class products, employs stringent quality processes, and continues its on-going commitment to you that we stand behind every product we make for trusted, long term performance.

PCT custom cable jumpers are made in the USA with PCT 75 Ohm coaxial cable, connectors, and sleeves in our factory using PCT proprietary automated jumper equipment.
